STRÄCK:

Udden:

Mindre sångsvan 2 ad, smålom 1, gråhakedopping 1 (AJO, BRG, JMS, FOG, KWL, Mfl)

RINGMÄRKNING:

Antal nätmertimmar: 470, rovfågelfällan aktiv, andfänget aktivt

STRÄCKFÖRSÖK:

Udden:

Råka 25, korp 5 (AJO, BRG, JMS, FOG, KWL, Mfl)

Gräsand 22
Hornuggla 3
Rödhake 2
Koltrast 10
Kungsfågel 2
Talgoxe 2
Trädkrypare 1
Sävsparv 1

RASTARE:

Udden:

Rapphöna 2, smålom 4, blå kärrhök 1 honfärgad, skärnsnäppa 35, gluttsnäppa 1, skärpiplärka 1, vinterhämpling 15 (AJO, BRG, JMS, FOG, KWL, Mfl)

Totalt 43 individer av 8 arter.

Västrevet:

Havsörn 4, trana 1, skärnsnäppa 16, kärrsnäppa 14, snösparv 48 (AJO, MGA)

Ringmärkare: ESR, YUN, MGA, CJT, HLD, VAF, MRO, AJO, KWL, BRG, JMS, FOG, AOI, ALD.

Sandvik:

Kärrsnäppa 11, myrspov 5, roskarl 6, ob. jord-/hornuggla 1 (JMS, BRG, AJO)

Norrvik:

Knölsvan 129, mindre sångsvan 12, gravand 16, skärfläcka 5, kärrsnäppa 106, myrspov 1, roskarl 4, snösparv 100 (BRG)

Mellersta lunden:

Fjällvråk 1 (KWL, MGA, FOG)

Norra lunden:

Ornvråk 1 1k (KWL, MGA)

Fyrvägen:

Prutgås 73, trana 1, ob. jord-/hornuggla 1 (AJO, MGA, JMS)

Gäddviken:

Sångsvan 1 (AJO, BRG)

Hahns fd. sjöbod:

Kärrsnäppa 6, roskarl 1 (JMS, AJO, BRG)

Norra schäferiängarna:

Snösparv 17 (BRG)

Västra mark:

Smålom 2, storlom 1, svarthakedopping 3, skärnsnäppa 1 (AJO, ESR)

Fyrträdgården:

Sparvhök 2, ladusvala 1, järnsparv 2 (JMS, AJO, BRG, FOG, MGA, Mfl)

Södra schäferiängarna:

Vinterhämpling 1, lappsparv 1 (JMS, BRG)

Måndagen den 4 november 2024

OTTENBY FÅGELSTATION

DIVERSE:

STTG: The wind finally dropped and we got a few more birds than the last few days. The best ones were 2 long-eared owls that were caught at the same time, a male and a female, both of them adults. Being able to directly compare the sex plumage differences was nice. Upon release, they both climbed to a considerable height and flew back north together.

AND: 22 mallards ringed and 30 controlled.

GAMM: JMS and FOG did more trapping in gammalsby and got 5 more blackbirds and a great tit.

Div: Today we got the data back for a red knot that we retrapped this summer, and it's a lot cooler than we expected! It turns out it was ringed in Mauritania, 9 years ago! It's not often that we retrap birds ringed in Africa so this is quite exciting.

Later at night FOG went nightcatching and trapped two partridges, a male and a female. Turns out, it's the same pair that we ringed back in March of this year! It's nice to see that they're doing well and still hanging out together. He also trapped another long-eared owl, which makes three for the day!
