Skärnäppa 22

Fiskmå 3

Gråtrut 5

Havstrut 2

**Totalt 42 individer av 9 arter.**

Ringmärkare: JMS, FOG, KWL, MGA, ALD.

DIVERSE:

AND: 5 mallards ringed, 69 in total including controls.

Div: A nightcatching expedition of epic proportions took place! In all the time JMS has been here he has never been nightcatching in Västrevet so him and FOG decided to do so tonight and bring rings out there with them. They caught a variety of nice birds: a fantastic male eider, lots of gulls of different species and ages, two mute swans, a cormorant and no less than 22 purple sandpipers (which now makes the purple sandpiper day-record)! All in all perhaps one of the best nightcatching sessions of the year.
