DIVERSE:

AND: No birds ringed and 47 mallards controlled. The water level was particularly low today.

Div: Lots of computerwork today. computer work. The bird bags were laundry-cleaned. FOG, KWL and MHM took down the portable MOTUS tower up the island. We have somehow found ourselves with 6+ tubs of hummus in the fridge that we need to get rid of before the end of the season so FOG made a lovely hummus platter-based dinner. After dinner FOG, MGA, ALD and JMS went to Västrevet and took out rings with them. It wasn't as succesful as last time but a nice number of purple sandpipers were still caught, and one more eider and jack snipe were ringed!
